Contributed Paper Session
Room 102 O'Connor Hall, Sunday, March 17, 8:30-10:30

8:30-8:45 Jana Gevertz, The College of New Jersey
    Computational Modeling of Tumor Response in Vascular Targeting Therapies

8:55-9:10   Xueying Wang, Texas A&M University
    Transmission Dynamics of Escherichia Coli O157:H7 in a Cattle Population

9:20-9:35 Ngoc Nguyen, Western Kentucky University
Alternative Models in Stochastic Frontier Analysis

9:45-10:00   Evelyn Lamb, University of Utah
    Harmonic Maps and the Indiscrete Components of Representation Space

10:10-10:25   Sukanya Basu, Central Michigan University
    A Comparison of the Local and Global Dynamics of Monotone and
    Antimonotone Maps in the Plane
